Protecting your family and your home comes first...

“Not In Our County”

... ALWAYS !

Broward County citizens and the Building Officials Association recognize that providing clean, safe living and working spaces is vital to the health and welfare of our community. Building permits and inspections are fundamental to maintain our high building standards and warrant the value, safety and longevity of homes and real estate investments.

You may not know: Building Officials also share the same mission as Fire and Police:

To Protect Lives and Property

Let's face it: Building officials will never run into a burning building, but work hard to ensure that America's heroes don't have to either.

Join the Building Officials and local Design and Construction Professionals to showcase what we do to keep your family safe.

Saturday, JUNE 23, from 10 a.m. – 4 p.m.
